

ENVIRONMENT HEALTH AND SAFETY POLICY

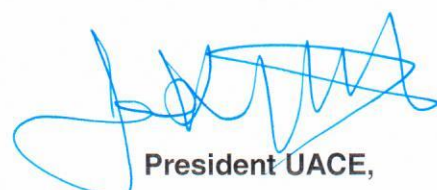

Our Environment and Occupational Health and Safety Policy is a process management tool to prevent all, Environment Health and Safety risk within the organization by means of planning implementation, monitoring, keeping under control and continuous improvement the integrated management system.

We commit to strive in meeting our customers and neighboring community expectations, to protect the Environment and the Health and Safety of our employees. We are committed to achieve all this by accomplishing the next fundamental objectives:

- To capitalize on a rich technological tradition in manufacturing aluminum, titanium, aluminum alloys components for aeronautical industry and placing on the market highly-competitive products, without any Environmental negative impact or damaging the Health and Safety and we comply with all applicable requirements which protect the Environment, Human Health and Safety and Emergency Situations;
- To manage Environment Health and Safety risk and performance effectively; actively seeking and acting upon meaningful opportunities to reduce risk and improve Environment, Health and Safety performance;
- To train our employees in case of an Emergency Situations and response capacity to prevent and reduce the negative Environment Health and Safety impact;
- Foster openness and dialog on Environment Health and Safety matters with our stakeholders, both internal and external, and to consult and involve our employees in the planning, implementing and assessment of the performance and improving EHS Management System;
- Select suppliers and business partners with consideration of their ability to run Safe and Environmentally responsible operations.

Our Environment Health and Safety Policy is implemented through a comprehensive Environment Health and Safety management system and involves all levels of the Company. Our performance is monitored and regularly reviewed to ensure our standards of conduct meet our high expectations, and that the Policy continues to be of value to our business and its stakeholders.
